July 3, 2018

ATTENDANCE: Byrnie Schroderus Jamie Vanderaa Nathan Larsgard Courtney Schmale Dale Hiebert
Susan Reeves Shane Dawson Mark Robideau Brian Roberts Roxanne Hiebert
Mike Rose Stacey Roberts Ryan Brown Kevin Arthur
Cole Reis Angela Kolson Dustin Black Alex Zavadil

RECORDER: Janelle Dubord

FINANCIAL: Chequing \$32, 878.07

OLD BUSINESS

- Byrnies Recap
 - Despite the rain, the event was very successful. Thank you to Byrnie for once again putting on a fantastic event.
 - Thank you to all the volunteers and the 91 participants. This event made a \$1,334.85 profit
- Ricinus Fun Day
 - Courtney gives an update on the event. Have a good game plan in place. Courtney and Cole will be going to Ricinus July 8th to ride the trails. On July 15th will be making sure all flagging is setup. Plaques are also on the way.
 - Land access agreement was signed and approved. Land holder has very little concerns for Rocky Club use. Make sure if you go out there, go under speed limit, give room to others on the road. Be respectful and build a relationship with the lease holders nearby so we can continue holding our fun events.
 - Used last year's map from TFA for Ricinus, Stacey will email the hard copy to Courtney and Cole. Caution sections will be flagged for the race.
- Gloomy
 - Kevin Arthur gives an update on Gloomy's trail condition. Due to erosion, would like to put signs up and eliminate a section we will take a different way around. Will put up a sign at the tower that trail is closed. Speak with G force graphics to get this made up.
- Marble
 - Marble is almost done. GPS maps to be sent to Brian so he can get started on the TFA. Need to still figure out a staging and parking area.
 - SSRRD has been left a message and an email. Will need another lease holder to get approval from.
- MX
 - Race 1 recap - race was a success over all. Next race there should be a better turnout as there was a conflict with AMSA. Mark mentioned there were red ant hills near the flaggers area to be dealt with. Need more flaggers for future races. This was an issue due to rider turnout. Potential to bring a group in to help.
 - Discussion around admittance charge at the date MX events. Jamie motions keep the \$5 gate fee. Mark seconds. All in favor.
 - Would like to do more weekends running day passes and letting public into the track. Last weekend there was \$1,480 made in day passes, thank you to Dale and Roxanne for volunteering.
 - Great feedback on the day pass weekend on track cleanliness and the energy was great.
 - New gate is up, will be hanging new gate to match up to the post hopefully this week.

NEW BUSINESS

- Website - \$70/hr for Case+point to handle upkeep and maintenance. Have race dates and posters in at once so it is one upload to keep changes to a minimum. Club should pay est. \$70/month for updates. Stacey has access to make updates in the event they are not available. Kevin motions let Case+point handle maintenance and watch costs monthly. Stacey Seconds. All in Favor.

Off-Road

- Storage / Cabinets
 - Talked to Tom Tensen about storage / cabinets for the race trailer. He is all for it, but probably can't until the fall.
- Emergency Response Plan (ERP)
 - Have done bits and pieces but need a complete product still. Will need an ERP for future TFA approvals.
 - Brian will talk to Second Gear Club to see if we can have a look at their ERP for fire, weather, injury and have a written policy.
- Safety Supplies for Race Trailer
 - Alex to bring fire extinguishers to next race. Wall mount rack, shovels, rakes, fueling station. Signs to be posted indicating first aid kit inside and fire extinguisher inside. Kevin will provide a quote for us.
- SSRD Contacts and TFA's
 - SSRD contacts to be laminated and posted in the trailer. Stacey will look into this.
 - Marble TFA – B loop is GPS'd. Need A Loop by July 17th for TFA deadline
 - Gloomy – TFA deadline is July 24th. Need the loops GPS'd.

MX

- Club Mower, Weed Eaters and Water Tanks
 - Club mower is at the track and will be stored in the seacan. Please only use premium / non-ethanol fuel.
 - Kevin motions to purchase 2 weed eaters max \$700 for the two. Nathan Seconds. All in Favor.
 - Mark will contact water truck services. Try to book Neway as they have been good to us in the past. Will need water truck for both weekends with a possible tank fill.
- AOTMX
 - Coming up this weekend. Ambulance booked. Need track groomed and ready before they come. Water if needed during the day and second day if needed touch up and water if required. Water truck will be billed to the club. Do a touch up Saturday night for Sunday's race (Mark and Nathan)
- July 14 – Jason Schrage
 - During this clinic the track will be closed due to the RMC Motocross Race the following day.
- Round 2 Rocky Motocross Race
 - Race is July 15th. Amber to be approached if she can be in charge for this race. Mark is in charge of booking the water truck. Currently using old flagging map and it does the job.
 - Nathan posted the volunteer signup sheet on the Facebook page. Mark would like to have a drone take an Aerial picture of the track and have it sent to him.
- Ladies Day Clinic
 - Will have the track and grounds prepped. Mow the endurocross grounds ASAP, then before the clinic. Spray around sections so grass won't grow around obstacles.
- Track Grooming
 - Full grooming of track depends on the weather and how the track holds up. Track was good this weekend, zero complaints. Review after RMC race, see how it looks then.

Meeting Adjourned.
